BENEFITS OF POLYCARBONATE VS. METAL

Durability.

Polycarbonate can endure the harshest weather conditions without rusting or corroding like most metals.

Lightweight.

Significantly lighter than metal, this product makes installation and removal easier.

Clarity.

This see-through material provides unmatched clarity and visibility.

Customization.

Easily customizable and can be precision-cut to your exact specifications through our value-added services.

Energy efficiency.

Polycarbonate is an excellent insulator, helping to keep your home cooler in the summer and warmer in the winter.
