CUBE—EXTEND

Planet Plastics Introduces

a new office furniture solution that allows you to make your existing cubical walls up to 24" taller with Cube-Extend!

As we transition back to the office, a top priority for businesses is to provide social distancing barriers and furniture solutions that make their staff feel safe and comfortable coming back to work.

CUBE-EXTEND Clamp-On Protective Barriers

are hassle-free panel extenders that are used to add height to your existing cubicle walls without the need for expensive add-ons from your cubicle or workstation manufacturer. These panels may offer additional protection from the spread of airborne particles in the office.

Using only a screwdriver, you can install CUBE-EXTEND adjustable clamps and barrier in minutes!
