## Metallex

It's the plastic that looks like metal. Save weight and expense for all your indoor metallic applications! Most popular for creating badges. Available in a variety of colors and 3 surface styles: The original Metallex is constructed with a laminated metallic foil cap. Metallex 2 has a special surface treatment to add scratch resistance to the beautiful yet sensitive metallic foil cap. And Metallex Gloss has an added glossy clear protective cap layer over the metallic foil – designed for the ultimate in scratch resistance.

Metallex Gloss		2-ply
Surface color*	Core color*	1/16"
glossy silver	black	23972
