

STUDENT **SPLASH SHIELD**

COVID-19 PROTECTIVE SHIELD

Assembly Instructions

**PROFESSIONAL
PLASTICS**

STEP 1:

Remove shield from the packaging and lay flat.

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

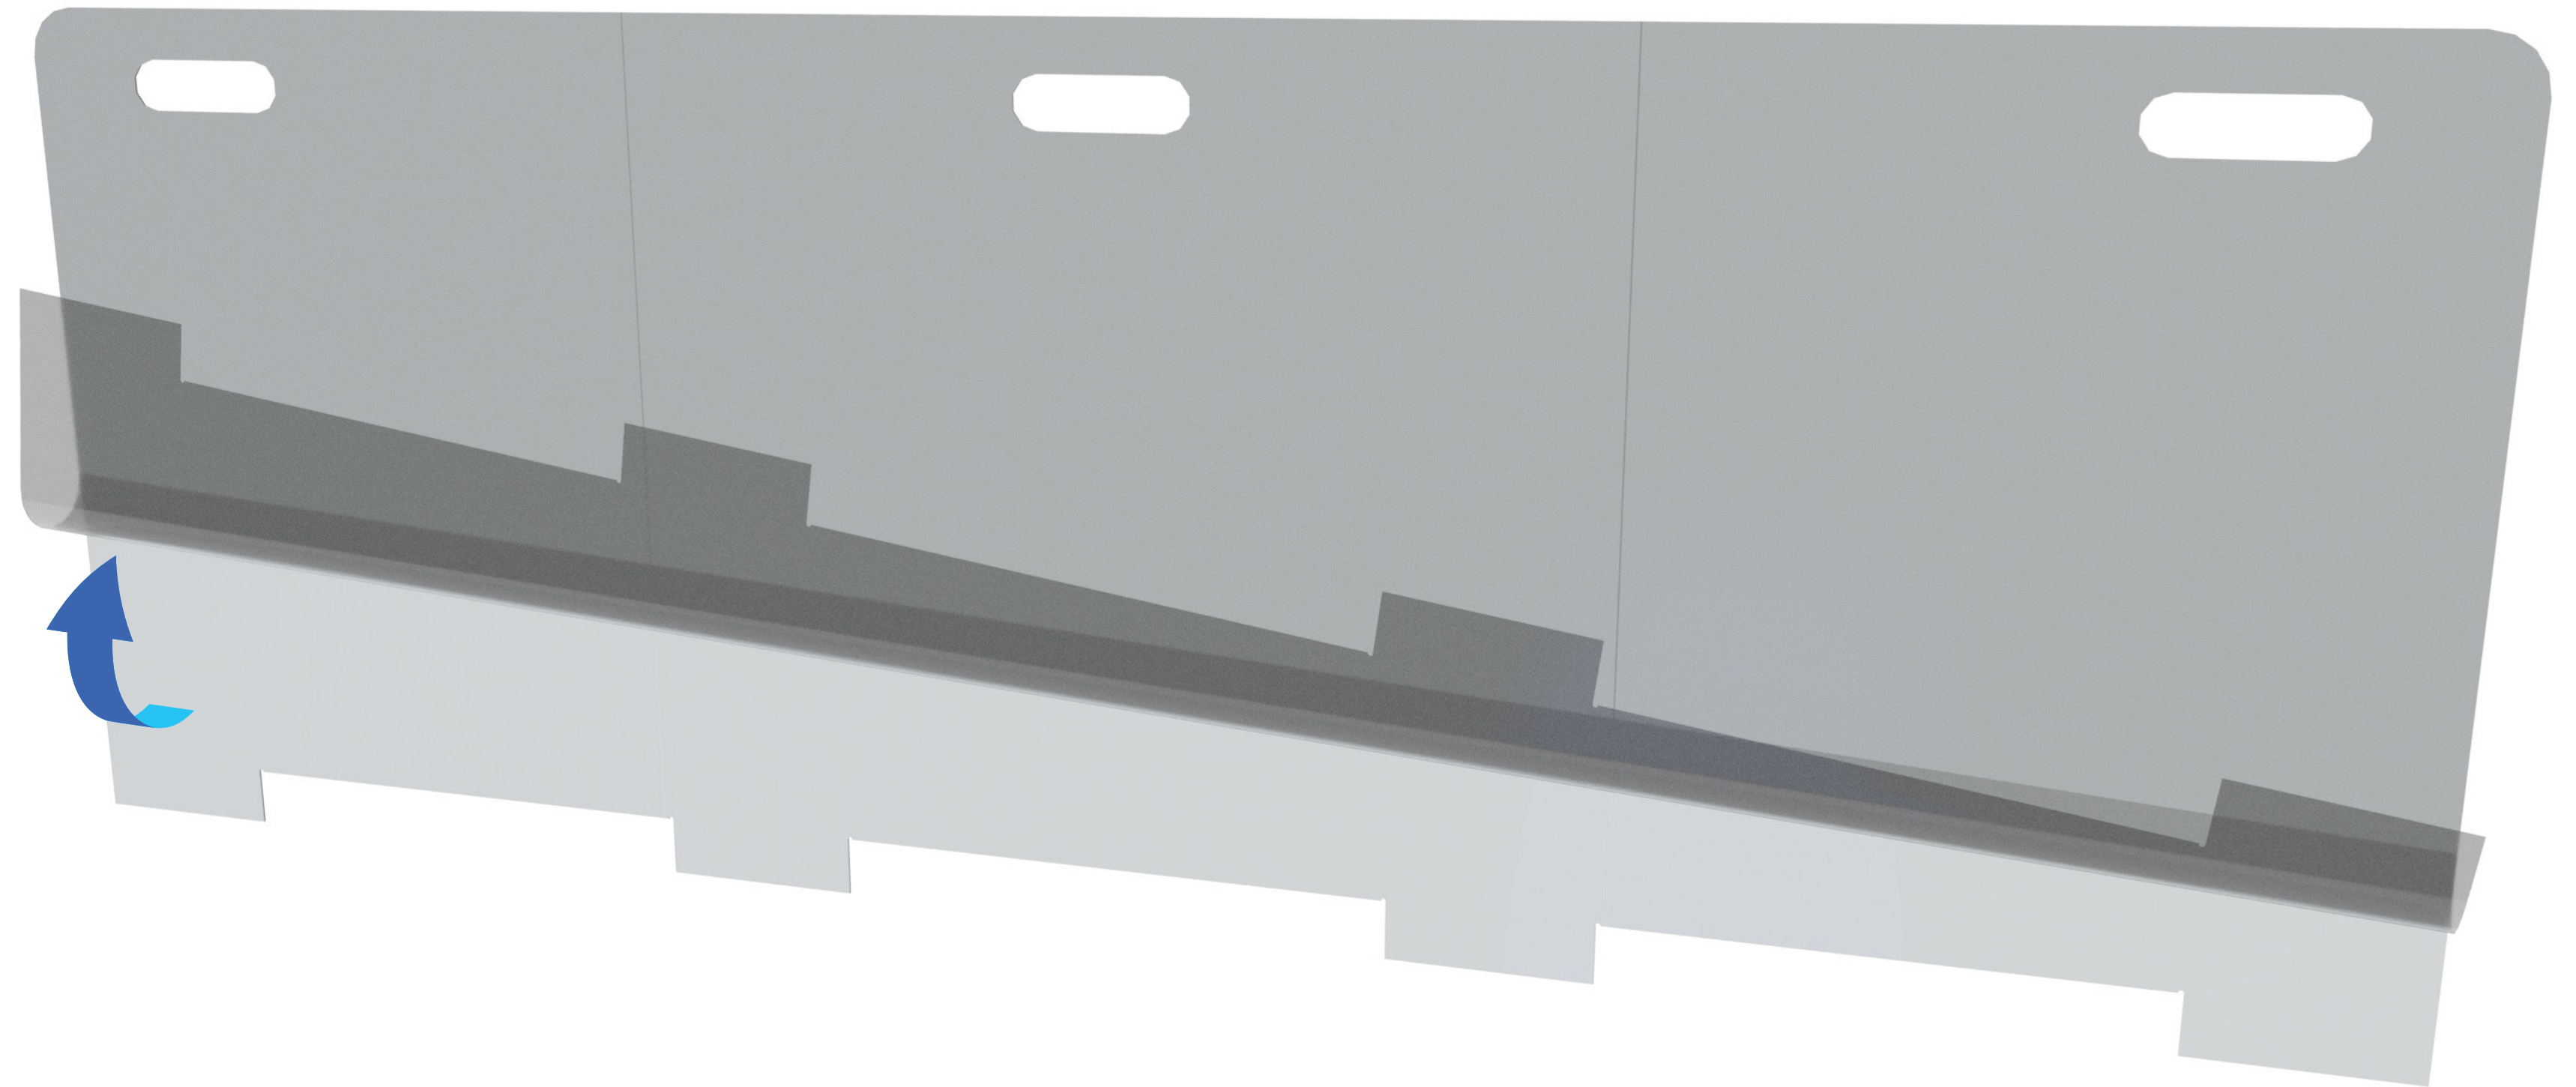

STEP 2:

Starting from the bottom, gently peel and roll away the protective film, exposing the bottom four hinge tabs on the exterior side of the shield.

NOTE:

If you are facing the exterior surface, all folds in the shield will hinge away from you.

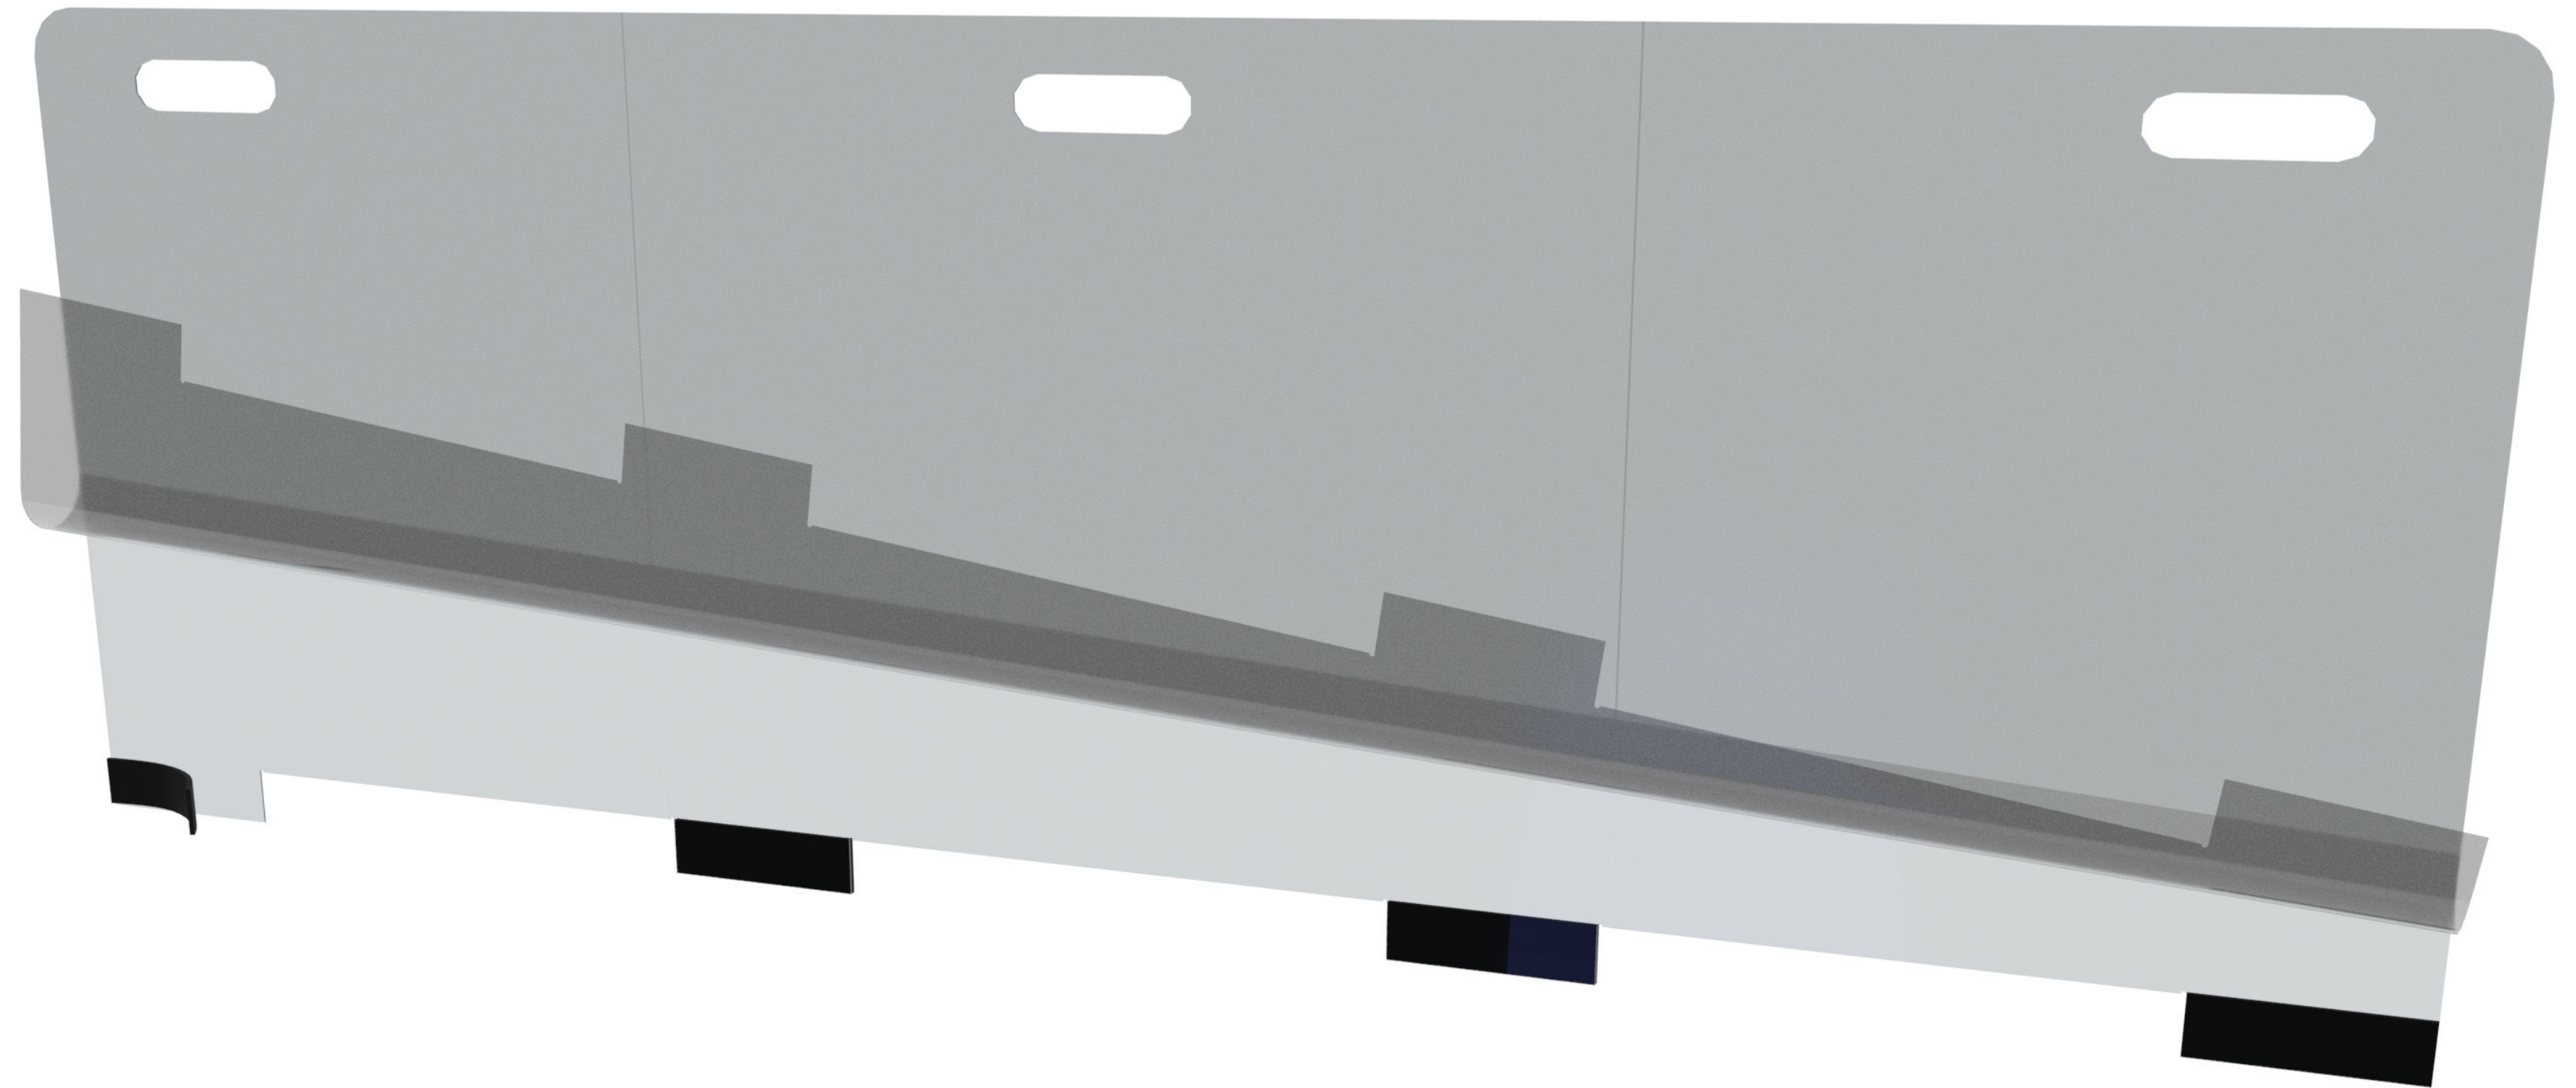

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 3:

Apply the supplied velcro to the bottom four tabs. The loop section of velcro (soft side) should be adhered to the exterior surface of the shield.

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

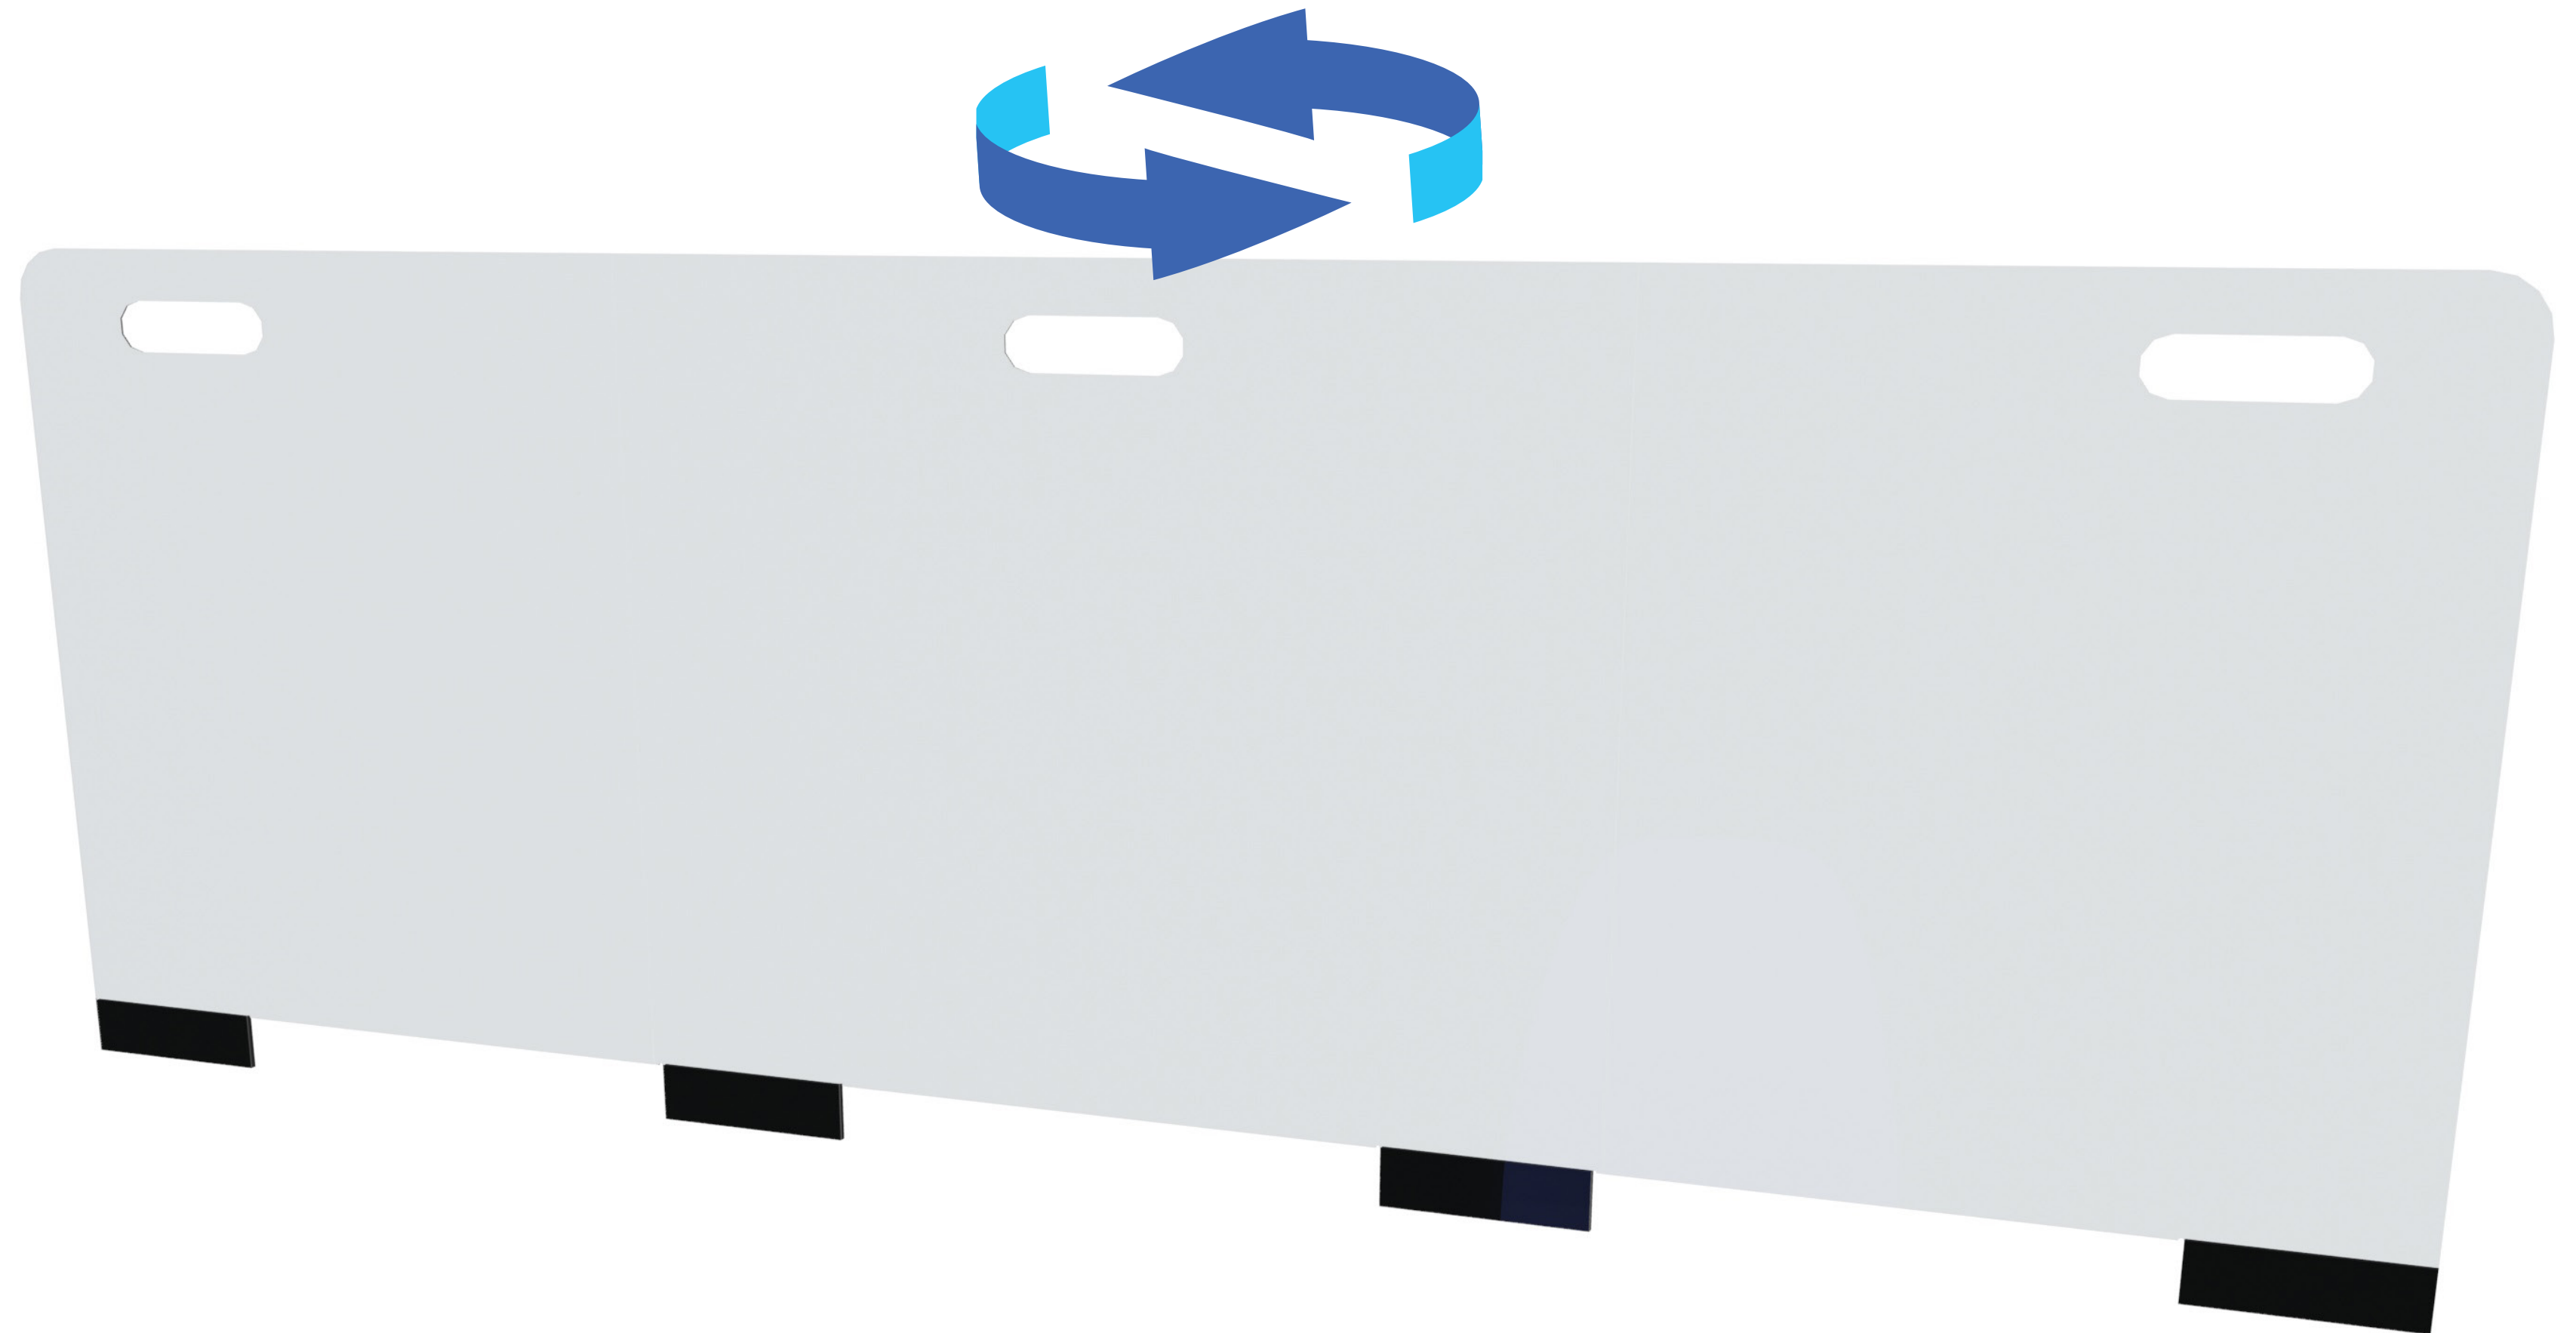

STEP 4:

Continue to remove the remainder of the protective film from surface of the shield.

Next, rotate the shield 180° so the velcro is facing away from you.

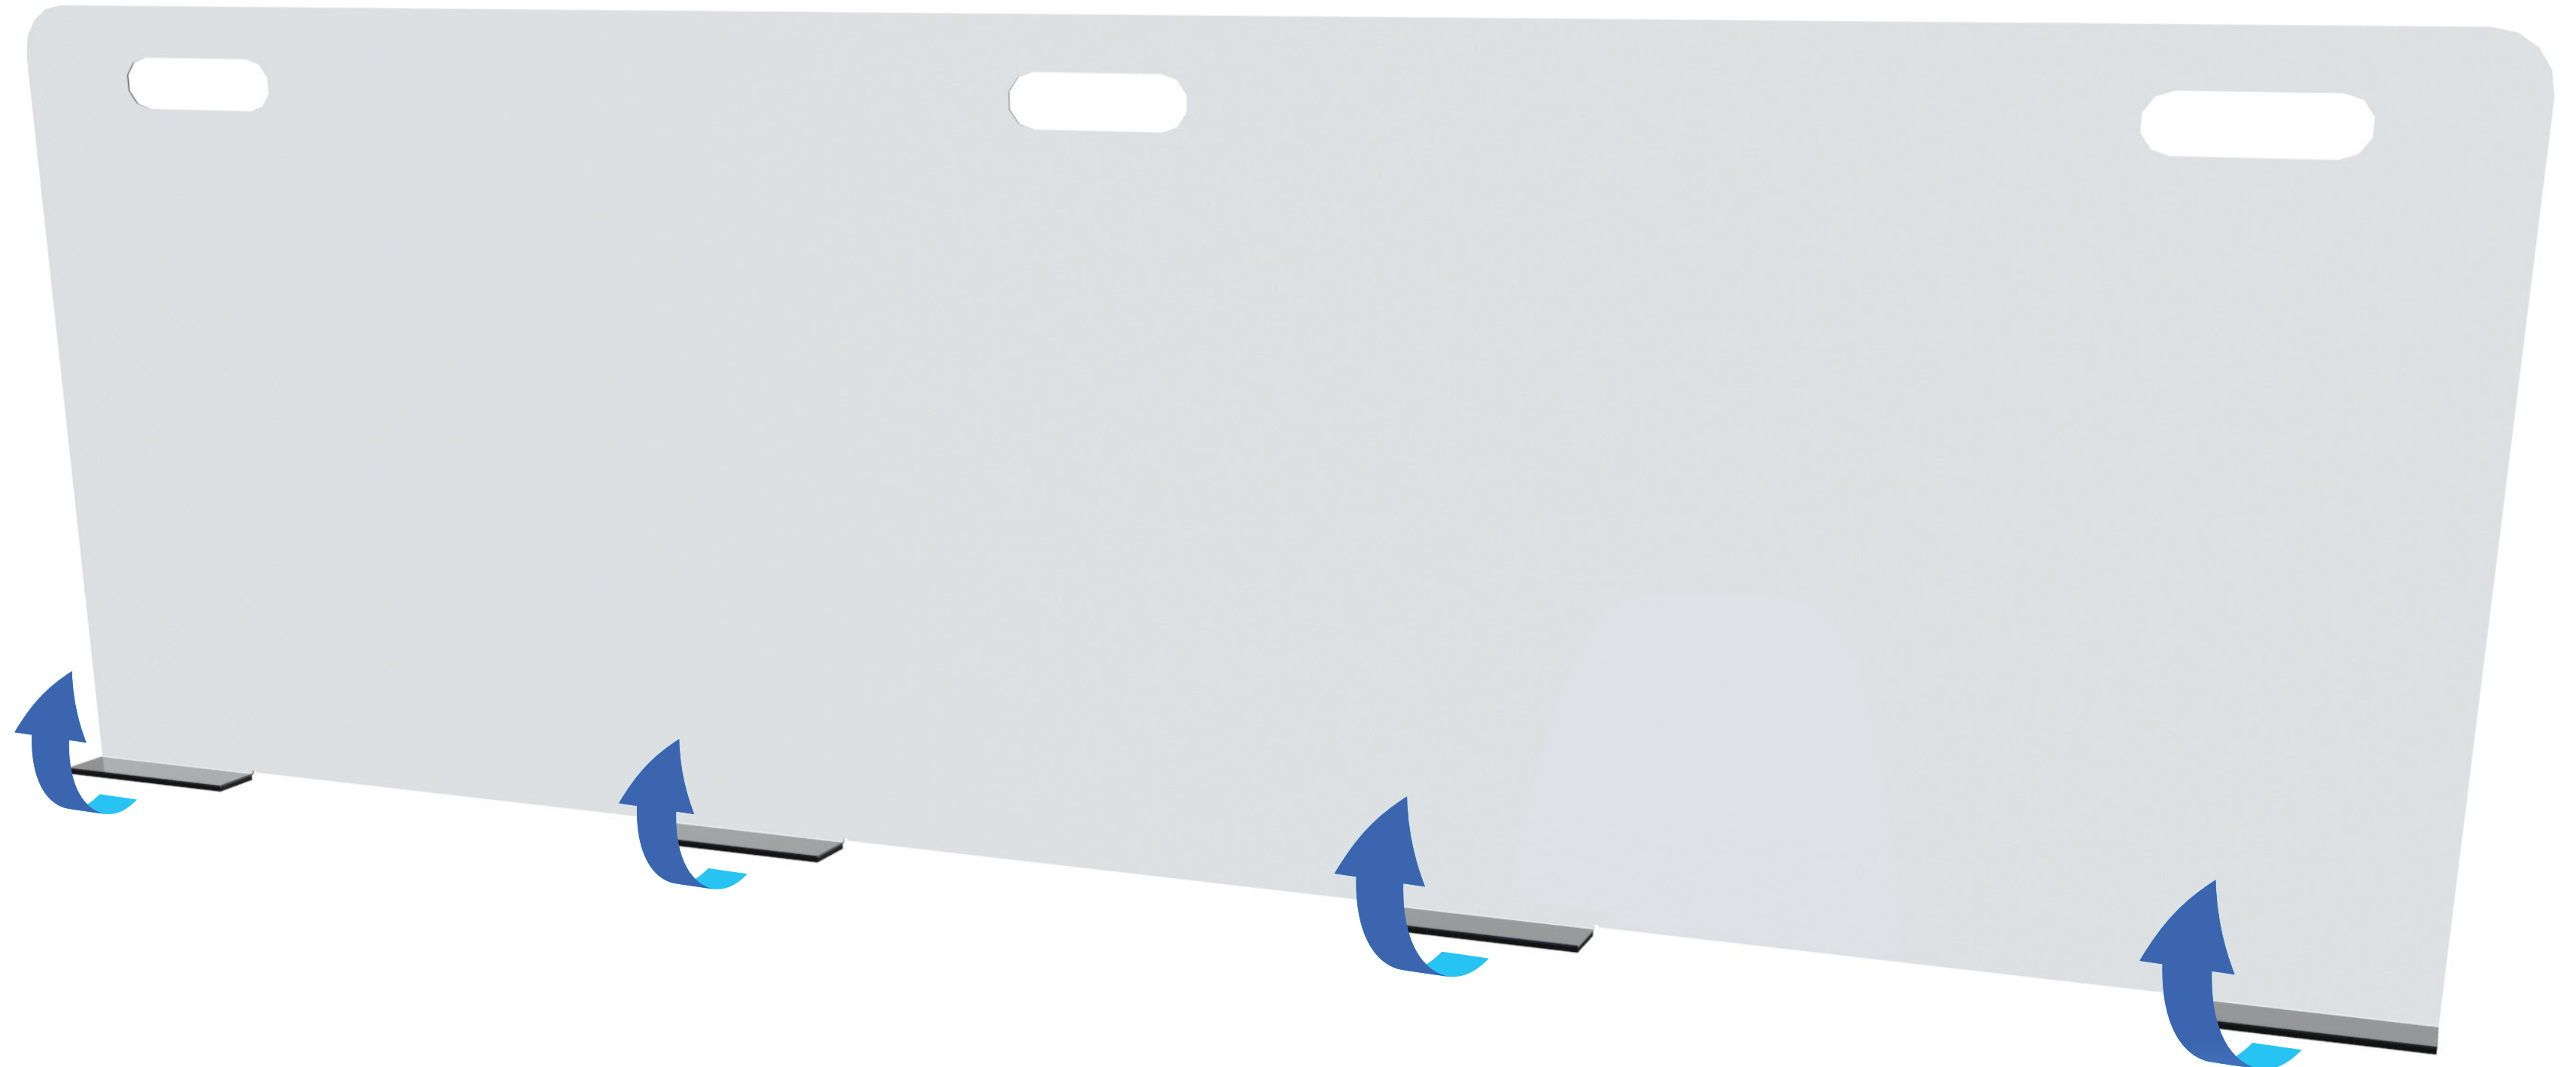

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 5:

Bend hinge tabs at a 90° angle. Once bent, the loop velcro should face down.

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 6:

Fold the left side of the shield in at a 90° angle.

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 7:

Fold the right side of the shield in at a 90° angle.

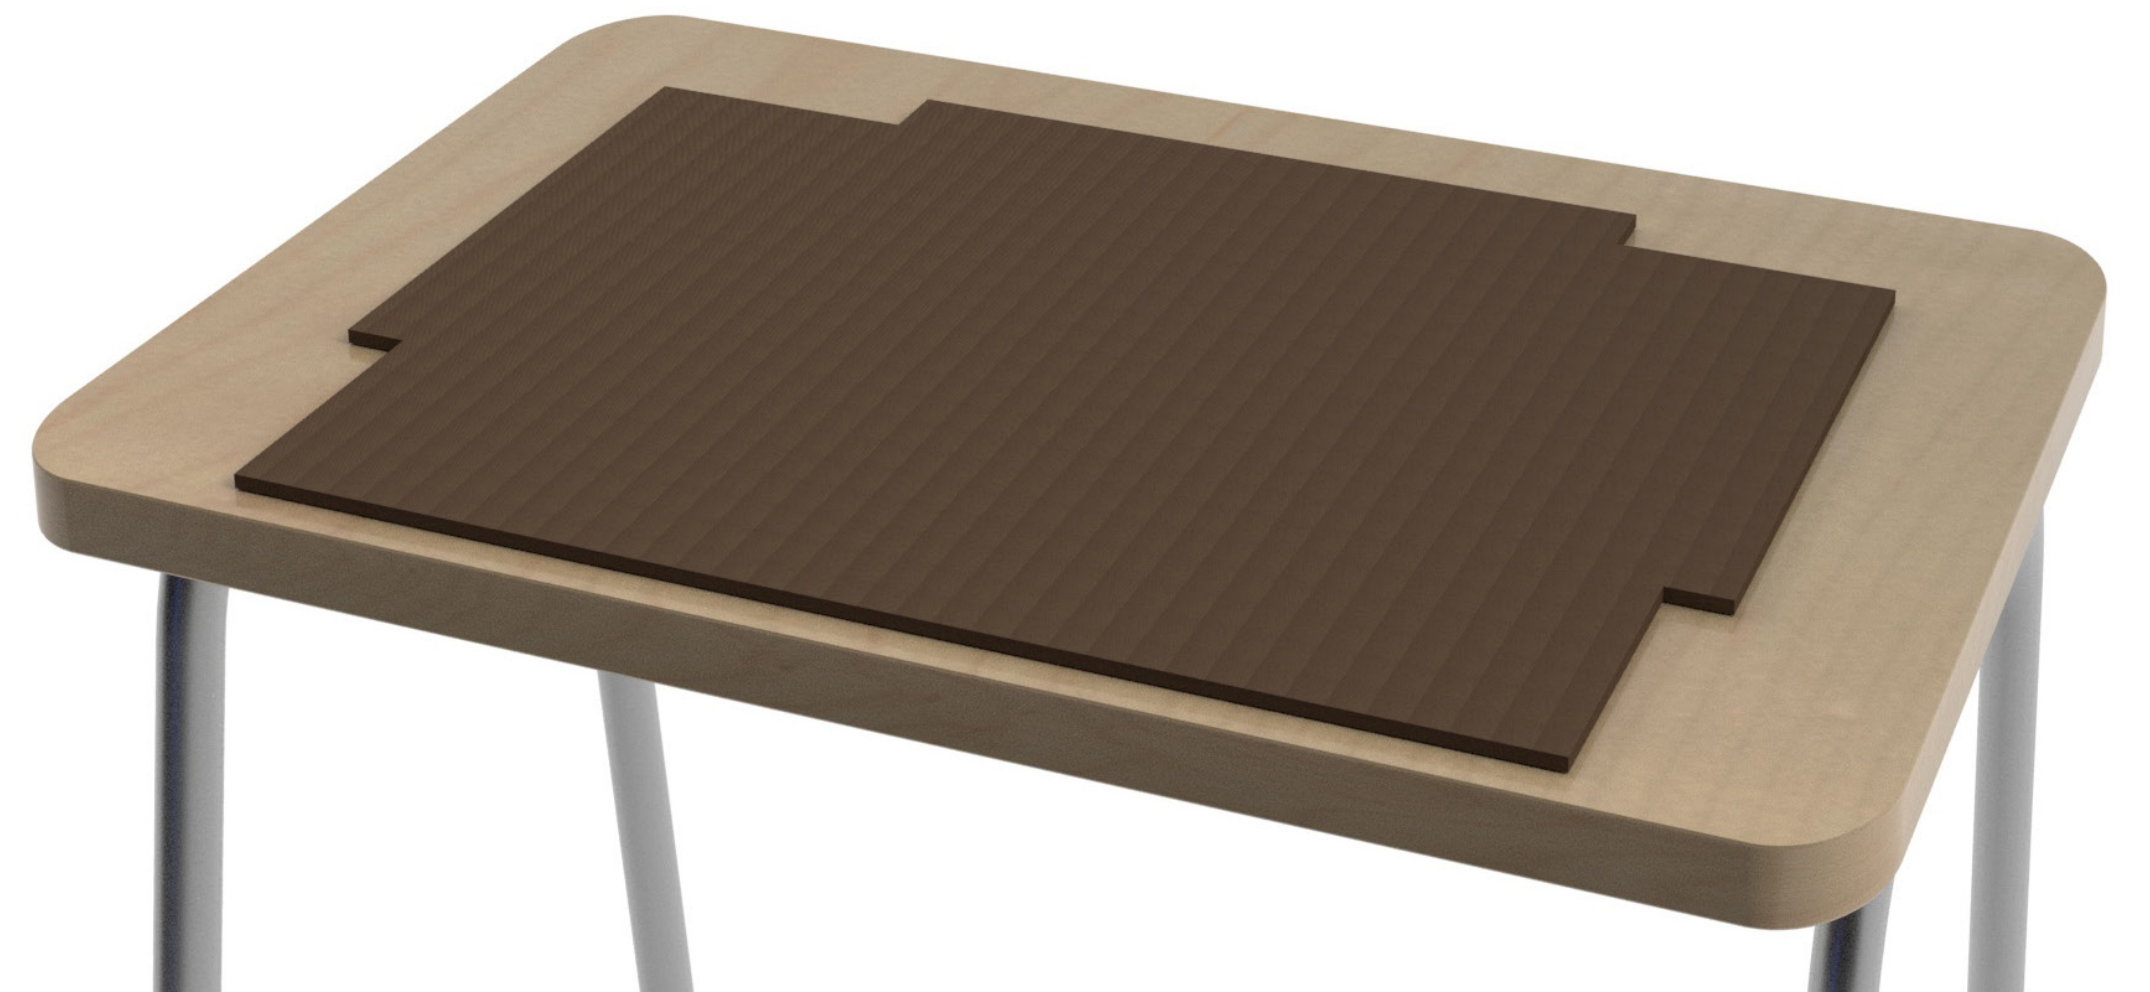

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 8:

Using the provided cardboard template, align the template on the work surface where the shield will be used.

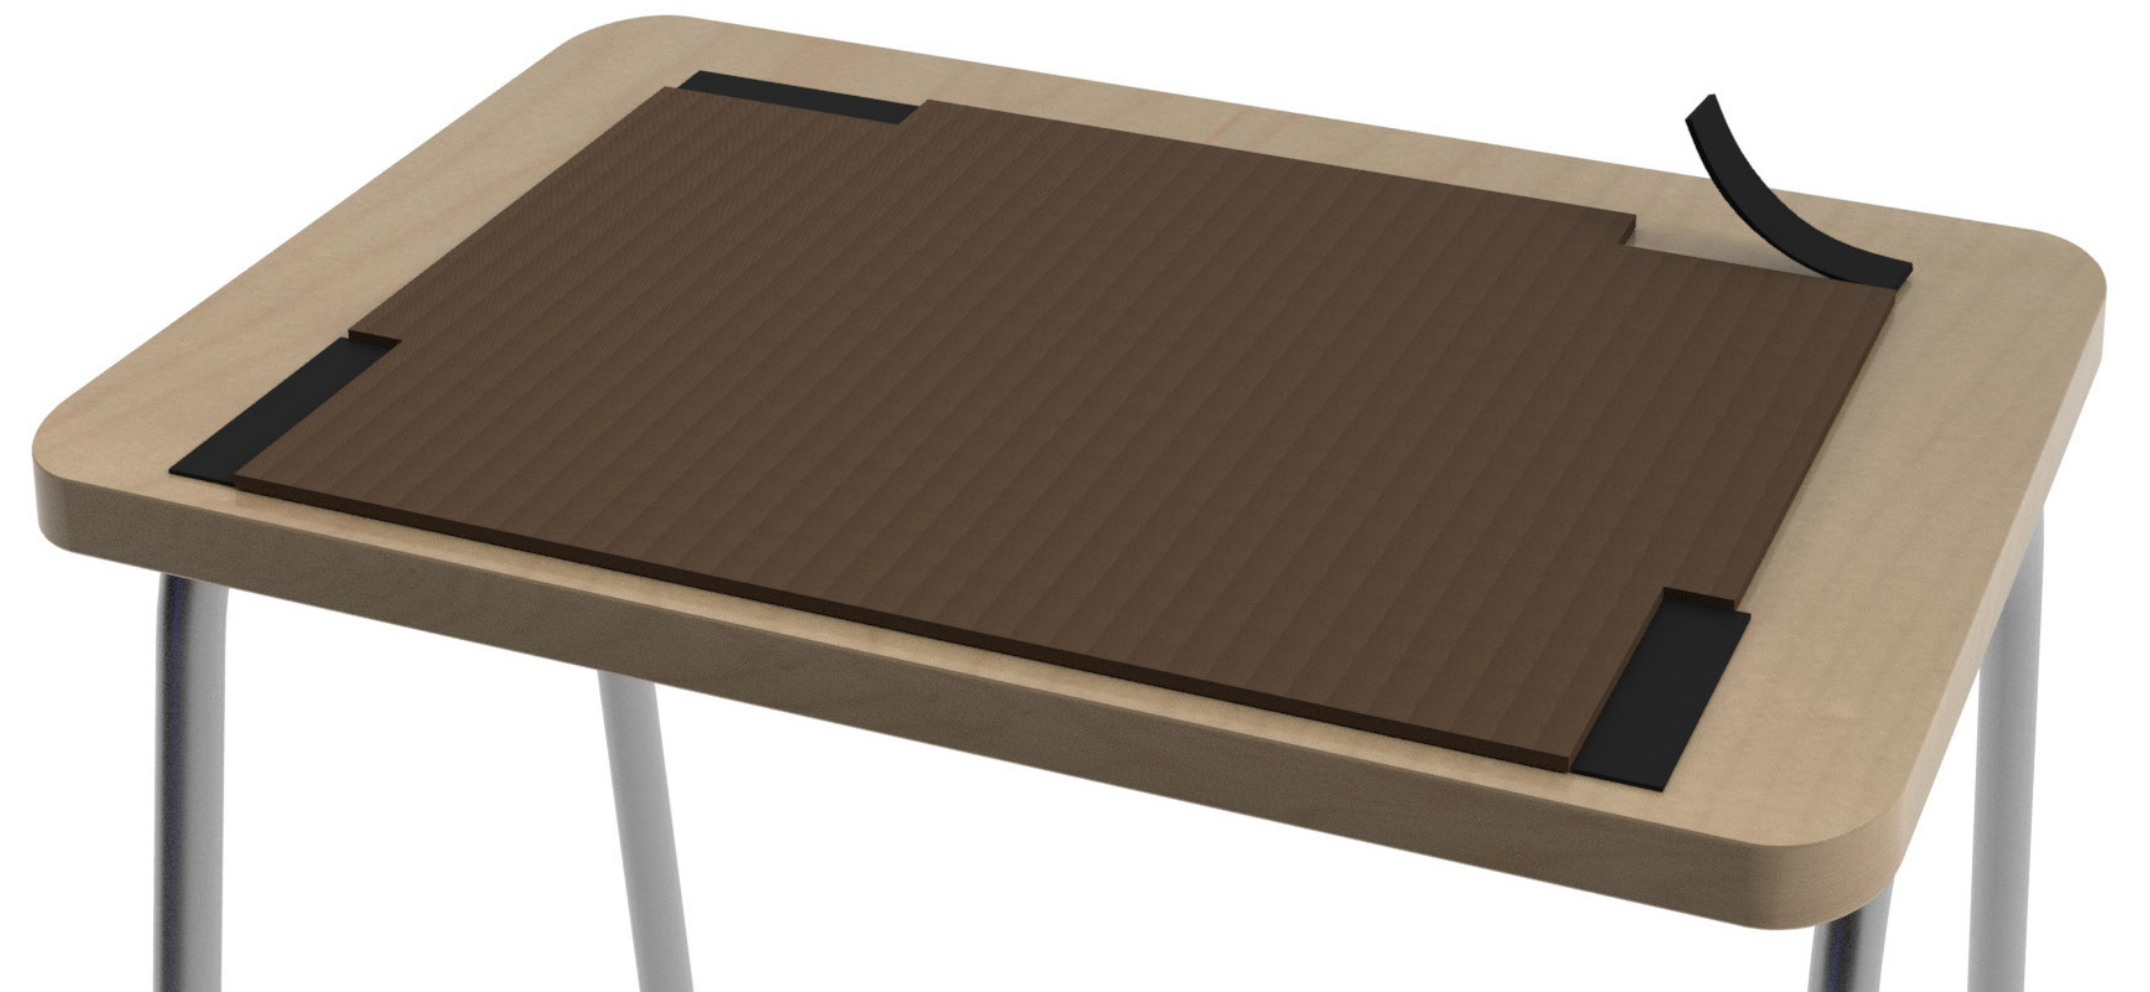

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 9:

Apply the supplied velcro to the work surface, making sure to place the hook velcro (scratchy side) within the cutout notches of the template. Firmly press down on the velcro to ensure solid adhesion.

**STUDENT
SPLASH SHIELD**
COVID-19 PROTECTIVE SHIELD

STEP 10:

Remove the template from the work surface. Save the template for future surface applications.

**STUDENT
