

STUDENT SPLASH SHIELD

COVID-19 PROTECTIVE SHIELD

*PORTABLE
LIGHTWEIGHT
CHEMICAL-RESISTANT*

Protection for your students this academic school year

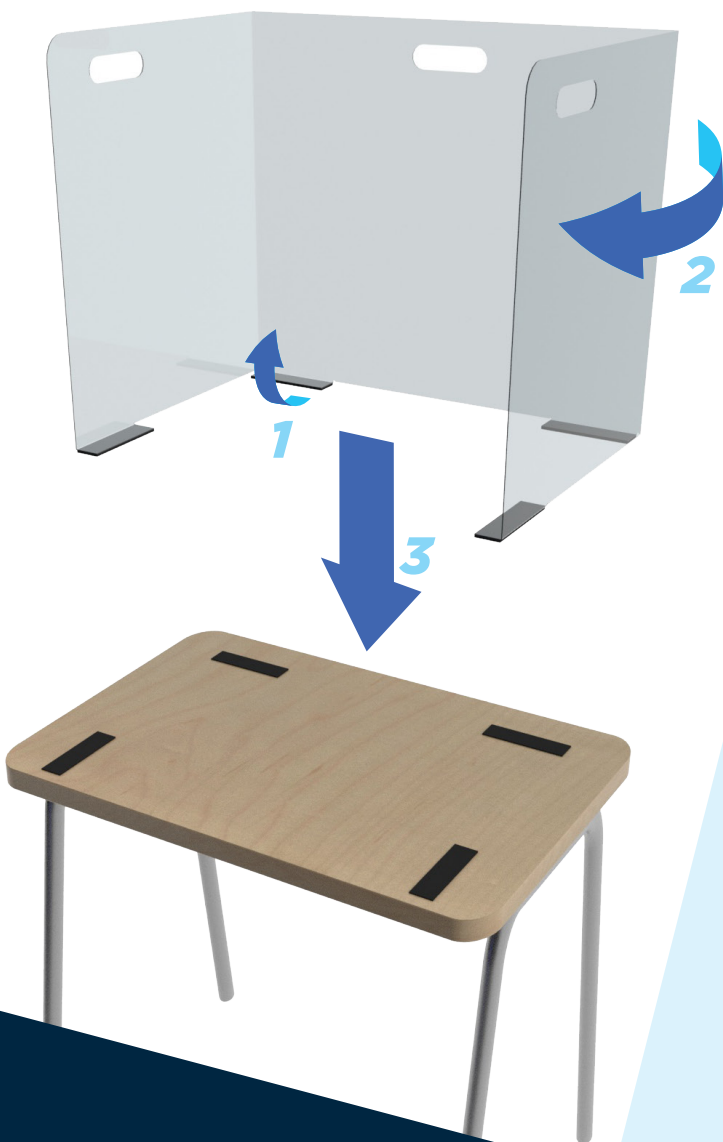

Professional Plastics' **Student Splash Shield** offers optimum protection against the spread of coronavirus in schools. Designed for standard 18" x 24" desks, the lightweight polymer shield features cut out handles and non-permanent velcro attachments that allow students to bring their **Student Splash Shield** to and from class.

This clear polymer provides more impact and scratch resistance than other see-thru products, and also holds up against harsh chemicals. It is light weight & folds flat for easy transfer.
