

Patient Barrier Shields - Temporary

Patient Barriers for Makeshift Hospitals (Temporary Hospitals) require lightweight, chemical-resistant Plastic Barriers Screens to separate patients. Professional Plastics has immediate availability of High-Impact Polystyrene Sheets OR Expanded PVC Sheets suitable for these protective patient barriers & testing enclosures. We also offer clear plexiglass sheets when visibility is required.

- **Immediate Sheet Stock from our 20 Locations Nationwide – Hardware Not Included**
- **Extremely Lightweight & Economical for Fast Assembly & Deployment**
