

PROFESSIONAL PLASTICS, INC.

Leading Supplier to the Aircraft & Aerospace Industry Since 1984'

Pro-Mirror Product Offering

Professional Plastics, Inc, as the leading supplier to the transportation industry, is introducing our Pro-Mirror™. Pro-Mirror is a V-0 rated product that is light weight, impact resistant and flame retardant. Pro-Mirror won't dent or scratch easily like similar products and may be fabricated or cut to size on site. Professional has a proprietary coating applied to our product which gives you the Security and Longevity you have been searching for. Our glass like Clarity and Reflective Qualities are second to none, there is no comparison. Professional Plastics Pro-Mirror AC 1000 is an Aircraft Grade Mirror lot and batch certified as a finished product, and independently tested by licensed DER/FAA Certified Test Labs. Pro-Mirror AC 1000 is manufactured and sold to These test results certify our material to **FAR 25.853** and are sent with every order as a standard. This standard is one that customers have come to expect from Professional as the leader in plastics distribution.

Features of Pro-Mirror AC-1000:

- OPTICAL CLARITY AND REFLECTIVE PROPERTIES
- FLAME SPECIFICATIONS
- EASE OF FABRICATION
- PERFORMANCE
