PLASTICS**

## **COVID-19 PROTECTIVE SHIELD**

- *PORTABLE*
- *LIGHTWEIGHT*
- *CHEMICAL-RESISTANT*

PROTECT YOUR STUDENTS THIS SCHOOL YEAR WITH  
PROFESSIONAL PLASTICS' SAFEGUARD PLUS!

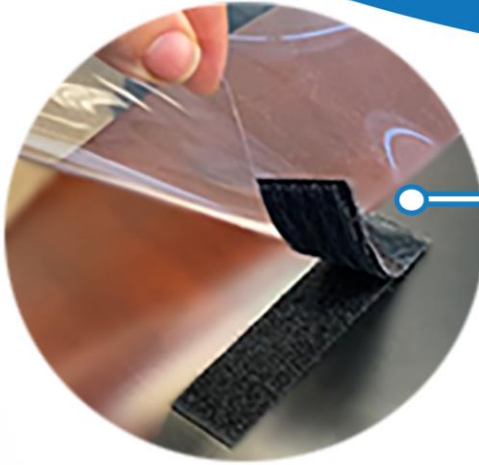

Professional Plastics' **SafeGuard Plus** offers optimum protection against the spread of coronavirus in schools. Designed for standard 18"x24" desks, the lightweight yet rigid .040 thick PETG shield features die cut handles and non-permanent velcro attachments that allow students to bring their **SafeGuard Plus** to and from class.

PETG provides more chemical-resistance than most see-thru products, which allows the **SafeGuard Plus** to hold up against cleaning agents.

BY PROFESSIONAL PLASTICS

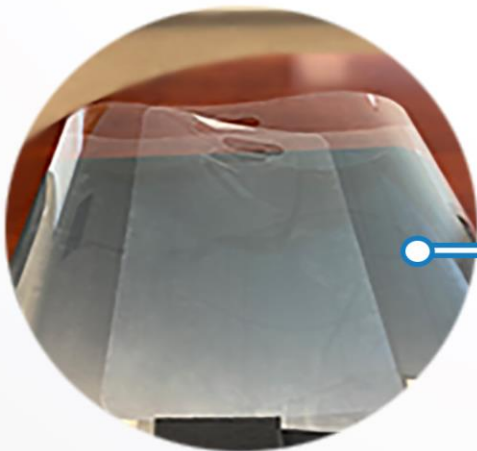

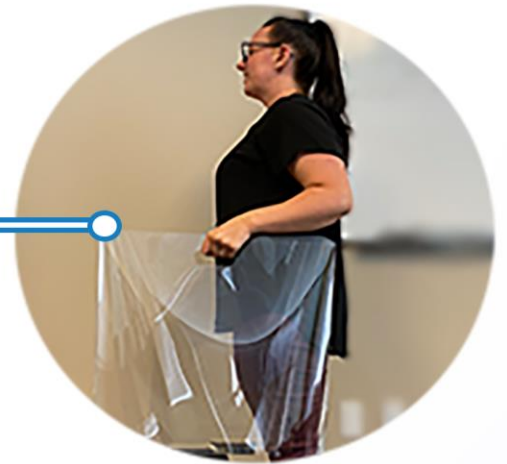

## Non-Permanent Velcro Attachment

SafeGuard Plus velcro attachments prevent permanent damage to school desks and provide the ability to remove shields for cleaning or traveling to and from class.

## Easy To Use Built-In Handles

Professional Plastics' SafeGuard Plus was built with kids in mind. These simple die-cut handles make the lightweight shield portable for changing classes.

## Tri-Fold Design for Simple Storage

SafeGuard Plus features collapsible sides designed for both transportation and basic storage. The PETG plastic folds into one compact unit.
