

SafeGuard

**BY PROFESSIONAL
PLASTICS**

COVID-19 PROTECTIVE SHIELD

- *PORTABLE*
- *LIGHTWEIGHT*
- *CHEMICAL-RESISTANT*

PROTECT YOUR STUDENTS THIS SCHOOL YEAR WITH
PROFESSIONAL PLASTICS' SAFEGUARD!

Professional Plastics' **SafeGuard** offers optimum protection against the spread of coronavirus in schools. Designed for standard 18"x24" desks, the lightweight PETG shield features die cut handles and non-permanent velcro attachments that allow students to bring their **SafeGuard** to and from class.

PETG provides more chemical-resistance than most see-thru products, which allows the **SafeGuard** to hold up against cleaning agents.

SafeGuard

BY PROFESSIONAL PLASTICS

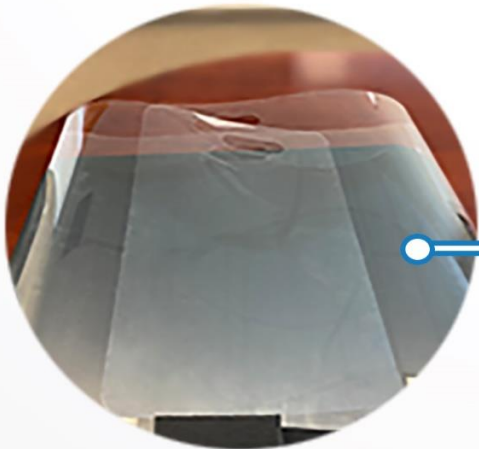

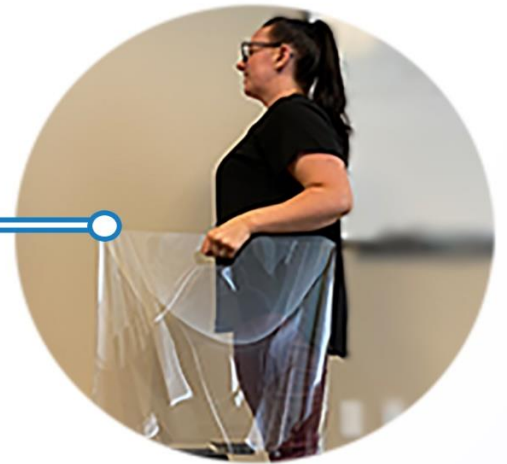

Non-Permanent Velcro Attachment

SafeGuard's velcro attachments prevent permanent damage to school desks and provide the ability to remove shields for cleaning or traveling to and from class.

Easy To Use Built-In Handles

Professional Plastics' SafeGuard was built with kids in mind. These simple die-cut handles make the lightweight shield portable for changing classes.

Tri-Fold Design for Simple Storage

SafeGuard features collapsible sides designed for both transportation and basic storage. The thin PETG plastic folds into one compact unit.
