TUFFAK[®]-DG DRIVER GARD

TUFFAK DG – MAXIMIZE OPERATOR SAFETY AND VISIBILITY

BARRIERS AND SURROUNDS – CLEARLY THE RIGHT CHOICE

TUFFAK DG polycarbonate sheet provides the durability required for partitions and barriers in buses without inhibiting operator vision.

- » Conforms to FMVSS 205/ANSI Z26.1, AS4
- » NHTSA approved for use as a protective driver partition
- » High impact resistance protects operator
- » Specified direction of extrusion for proper installation
- » Enables drivers to interact freely with passengers
- » Does not shatter into sharp-edged pieces like glass
- » High optical quality provides clear line-of-sight for operator
- » 2-sided abrasion resistant coating
- » Longer service life and exceptional durability compared to glass
- » Easy to fabricate and install-half the weight of glass
- » Easy to clean*
- » 7 year limited product warranty

DISINFECTING ACRYLIC, POLYCARBONATE AND PETG

When disinfecting OPTIX[®] Acrylic, TUFFAK[®] Polycarbonate and VIVAK[®] PETG, proper procedures should be taken. To minimize the risk of damage, use only compatible household

cleaners as outlined below. For more details please contact the Plaskolite Technical Service Group at **800.848.9124** with any questions.
